profile

I'm a software Developer with a background in marketing. My venture into software engineering began with a spark of curiosity into emerging technologies. Motivated by my passion to build/create great things and self-improvement, I was inspired to learn more about the capabilities and advancements of software development to solve problems.

EDUCATION

software engineering - 2022

General Assembly

Business admin - 2021

Cégep du vieux montréal

PROJECTS

Event App

- Created a RESTful MEN-stack CRUD Application
- Utilized Trello for tracking user stories, ice box items, and MVP progress.
